NASA has not yet made a determination to grant the requested license and may deny the requested license even if no objections are submitted within the comment period.

DATES: The prospective partially exclusive license may be granted unless NASA receives written objections, including evidence and argument no later than April 11, 2019 that establish that the grant of the license would not be consistent with the requirements regarding the licensing of federally owned inventions as set forth in the Bayh-Doherty Act and implementing regulations. Competing applications completed and received by NASA no later than April 11, 2019 will also be treated as objections to the grant of the contemplated partially exclusive license. Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act.

ADDRESSES: Objections relating to the prospective license may be submitted to Patent Counsel, Office of Chief Counsel, NASA Langley Research Center, MS 30, Hampton, Virginia 23681. Phone (757) 864-3221. Facsimile (757) 864-9190.

The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS. II. Background

The NRC received a request for approval of the partial site releases from GE Hitachi Nuclear Energy (GEH or licensee), by letter dated December 14, 2018 (ADAMS Accession No.

ML18348A425). The request seeks approval for release for unrestricted use of a non-impacted portion of the VNC site acreage located at 6705 Vallecitos Rd., Sunol, California. The proposed release area is an approximately seven-acre portion on the south side of the licensee-controlled facility property.

The GEH licenses (NRC License No. DPR–1, Docket No. 50–18, and License No. DR–10, Docket No. 50–183) are for power reactors licensed under part 50, “Domestic Licensing of Production and Utilization Facilities,” of title 10 of the *Code of Federal Regulations* (10 CFR). The two facilities are certified as permanently shut down with licenses allowing only the possession of nuclear material (not operation of the reactors). Both reactors are currently in “SAFSTOR” decommissioning mode awaiting the termination of their power reactor licenses.

The licensee requests this partial site release for unrestricted use under 10 CFR 50.83, “Release of part of a power reactor facility or site for unrestricted use.” The licensee has declared this portion of the site to be “non-impacted” as defined in 10 CFR 50.2, “Definitions.” Approval of the request would allow GEH to make the released portion of the property available to the Alameda County Transportation Commission to support road development and widening of California State Highway 84.

As described in 10 CFR 50.83(c), the NRC will determine whether the licensee has adequately evaluated the effect of releasing the properties per the requirements of 10 CFR 50.83(a)(1); determine whether the licensee’s classification of any released area as “non-impacted” is adequately justified; and if the NRC determines that the licensee’s submittal is adequate, inform the licensee in writing that the release is approved.

III. Public Meeting

The NRC will conduct a public meeting to discuss GEH’s request for approval of the partial site release. The meeting will be held on Thursday, March 28, 2019, from 7:00 p.m. until 8:30 p.m., Pacific Daylight Time, at the Aloft Hotel Dublin-Pleasanton, 4075 Grafton Street, Dublin, California.

This is a Category 3 public meeting where stakeholders are invited to fully engage NRC staff to provide a range of views, information, concerns and suggestions with regard to regulatory issues related to GEH’s request. After the licensee and NRC staff presentations, the public can ask questions and give feedback. Comments

can be provided orally or in writing to the NRC staff present at the meeting.

Stakeholders should monitor the NRC's public meeting website for information about the public meeting at: <https://www.nrc.gov/pmns/mtg>. The agenda will be posted no later than 10 days prior to the meeting.

Dated at Rockville, Maryland, this 21st day of March 2019.

For the Nuclear Regulatory Commission.

Stephen S. Koenick,

Acting Director, Division of Decommissioning, Uranium Recovery and Waste Programs, Office of Nuclear Material Safety and Safeguards.

SUPPLEMENTARY INFORMATION:

In accordance with the Privacy Act of 1974, as amended by the Computer Matching and Privacy Protection Act of 1988 and the Computer Matching and Privacy Protections Amendment of 1990 (Privacy Act), and Office of Management and Budget (OMB) guidance on the conduct of matching programs, including OMB Final Guidance Interpreting the Provisions of Public Law 100-53 (published in the **Federal Register** on June 19, 1989 (54 FR 25818) and OMB Circular A-108, notice is hereby given of the re-establishment of a matching program between the Office of Personnel Management (OPM) and the Social Security Administration (SSA). This matching program, Computer Matching Agreement 1071, is being re-established to enable OPM to offset specific benefits paid to disability annuitants, child survivor annuitants, and spousal survivor annuitants by a percentage of benefits payable by SSA under Title II of the Social Security Act, as required by law.

Participating Agencies: OPM and SSA
Authority for Conducting the Matching Program: OPM's authority to participate in this matching program derives from 5 U.S.C. 8442(f), 8443(a), 8452(a)(2)(A), and 8461(h)(1). SSA is authorized to participate in this matching program pursuant to 42 U.S.C. 1306.

Purpose(s): The purpose of this matching program between OPM and SSA is to assist OPM in meeting its legal obligation to offset specific benefits payable by OPM to disability annuitants, child survivor annuitants, and spousal survivor annuitants. SSA will disclose to OPM benefit information regarding individuals who receive benefits from SSA under Title II of the Social Security Act, which OPM

will use to determine an individual's eligibility to receive benefits from OPM and to compute the benefits it provides at the correct rate.

Categories of Individuals: The individuals about whom OPM maintains information that are involved in this matching program include retired Federal employees who are eligible or potentially eligible to receive a disability annuity from OPM (disability annuitants), and surviving children and surviving spouses of those disability annuitants who are themselves eligible or potentially eligible to receive an annuity from OPM. The individuals about whom SSA maintains information that is involved in this matching program include those who receive benefits from SSA under Title II of the Social Security Act.

Category of Records: The categories of records involved in the data match from OPM include information about those individuals who have applied for or are eligible or potentially eligible for disability annuitant benefits. Specifically, full name, Social Security number (SSN), date of birth, and a system indicator required to extract information from SSA's systems. For those individuals for whom SSA has a record, SSA will provide OPM with information about an individual's beneficiary status and any associated benefit information; for those individuals for whom SSA cannot match the SSN, SSA will return an appropriate code to OPM.

System(s) of Records: OPM's system of records involved in this matching program is designated OPM/Central-1, Civil Service Retirement and Insurance Records. 64 FR 54930 (Oct. 8, 1999), as amended at 73 FR 15013 (March 20, 2008). SSA's systems of records involved in this matching program are the Master Files of Social Security Number Holders and SSN Applications, 60-0058, 75 FR 82121 (Dec. 29, 2010) as amended at 78 FR 40542 (July 5, 2013) and 79 FR 8780 (Feb. 13, 2014); and the Master Beneficiary Record (MBR), 60-0090, 71 FR 1826 (Jan. 11, 2006), as amended at 72 FR 69723 (Dec. 10, 2007) and 78 FR 40542 (July 5, 2013).
