

Brand name	Basic model
RollSeal Automated Door System	RS-500 5K072x108

(2) The alternate test procedure for the HH Technologies basic models referenced in paragraph (1) of this Order is the test procedure for walk-in doors prescribed by DOE at 10 CFR part 431, subpart R, appendix A, except that the percent time off (“PTO”) value specified in section 4.5.2 “Direct Energy Consumption of Electrical Components of Non-Display Doors” shall be 96% for door motors. All other requirements of 10 CFR part 431, subpart R, appendix A and DOE’s regulations remain applicable.

(3) *Representations.* HH Technologies may not make representations about the energy use of the basic models identified in paragraph (1) of this Order for compliance, marketing, or other purposes unless the basic model has been tested in accordance with the provisions set forth above and such representations fairly disclose the results of such testing in accordance with 10 CFR part 431, subpart R, appendix A and 10 CFR part 429, subpart B, as specified in this Order.

(4) This Extension of Waiver shall remain in effect consistent with the provisions of 10 CFR 431.401.

(5) This Extension of Waiver is issued on the condition that the statements, representations, and documents provided by HH Technologies are valid. If HH Technologies makes any modifications to the controls or configurations of these basic models, the waiver will no longer be valid and HH Technologies will either be required to use the current Federal test method or submit a new application for a test procedure waiver. DOE may rescind or modify this Extension of Waiver at any time if it determines the factual basis underlying the petition for Extension of Waiver is incorrect, or the results from the alternate test procedure are unrepresentative of the basic model’s true energy consumption characteristics. 10 CFR 431.401(k)(1). Likewise, HH Technologies may request that DOE rescind or modify the Extension of Waiver if HH Technologies discovers an error in the information provided to DOE as part of its petition, determines that the waiver is no longer needed, or for other appropriate reasons. 10 CFR 431.401(k)(2).

(6) Granting of this Extension of Waiver does not release HH Technologies from the certification requirements set forth at 10 CFR part 429.

Signed in Washington, DC, on January 18, 2019.

Acting Deputy Assistant Secretary for Energy Efficiency Energy Efficiency and Renewable Energy.

DEPARTMENT OF ENERGY

[OE Docket No. EA–465]

Application To Export Electric Energy; Brookfield Renewable Trading and Marketing LP

AGENCY: Office of Electricity, DOE.

ACTION: Notice of application.

SUMMARY: Brookfield Renewable Trading and Marketing LP (BRTM or Applicant) has applied for authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before March 6, 2019.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to *Electricity.Exports@hq.doe.gov*, or by facsimile to 202–586–8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. § 824a(e)).

On December 26, 2018, DOE received an application from BRTM for authorization to transmit electric energy from the United States to Canada as a power marketer for a five-year term using existing international transmission facilities.

In its application, BRTM states that it “does not own generation or transmission assets and does not have a

franchised electric service area.” The electric energy that the Applicant proposes to export to Canada would be surplus energy purchased from third parties such as electric utilities and other suppliers within the United States pursuant to voluntary agreements. The existing international transmission facilities to be utilized by BETM have previously been authorized by Presidential Permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission’s Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five (5) copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning BRTM’s application to export electric energy to Canada should be clearly marked with OE Docket No. EA–465. An additional copy is to be provided to Ruth Teetzel, Brookfield Renewable Trading and Marketing LP, 41 Victoria Street, Gatineau, Quebec J8X 2A1.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE’s National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program website at <http://energy.gov/node/11845>, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Management and Program Analyst,

Assistance, Office of Electricity.

FEDERAL RESERVE SYSTEM

FEDERAL DEPOSIT INSURANCE CORPORATION

[FRB Docket No. OP-1644]

Final Guidance for the 2019

AGENCY: Board of Governors of the
Federal Reserve System (Board) and
Federal Deposit Insurance Corporation
(FDIC).

ACTION: Final guidance.

SUMMARY: The Board and the FDIC
(together, the “Agencies”) are adopting
this final guidance for the 2019 and
subsequent resolution plan submissions
by the eight largest, complex U.S.
banking organizations (“Covered
Companies” or “firms”). The final
guidance is meant to assist these firms
in developing their resolution plans,
which are required to be submitted
pursuant to the Dodd-Frank Wall Street
Reform and Consumer Protection Act
(“Dodd-Frank Act”). The final guidance,
which is largely based on prior guidance
issued to these Covered Companies,
describes the Agencies’ expectations
regarding a number of key
vulnerabilities in plans for an orderly
resolution under the U.S. Bankruptcy
Code (*i.e.*, capital; liquidity; governance
mechanisms; operational; legal entity
rationalization and separability; and
derivatives and trading activities). The
final guidance also updates certain
aspects of prior guidance based on the
Agencies’ review of these firms’ most
recent resolution plan submissions.
