SUPPLEMENTARY INFORMATION:**Background**

Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure fair practices in the food trade; promotes coordination of all food standards work undertaken by international governmental and nongovernmental organizations; determines priorities, initiates, and guides the preparation of draft standards; finalizes the standards elaborated and publishes them in a Codex Alimentarius (food code) either as regional or worldwide standards, wherever this is practicable; and amends published standards, as appropriate, in the light of new developments.

Issues To Be Discussed at the Public Meeting

The following items on the Agenda for the 42nd Session of the CAC will be discussed during the public meeting:

Requests for additional information or copies of this information collection should be directed to Moira Johnston at 703-305-2515.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions that were used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Title: SNAP E&T Performance Measure, Monitoring, and Reporting Requirements.

Form Number: Not applicable.

OMB Number: 0584-0614.

Expiration Date: 9/30/2019.

Type of Request: Extension, without change, of a currently approved collection.

Abstract: Supplemental Nutrition Assistance Program (SNAP) regulations at 7 CFR 273.7(c)(17) requires State agencies to submit annual outcome reports to monitor the effectiveness of SNAP Employment and Training (E&T) programs. State agencies must maintain records in order to support data reported in the annual outcome reports.

The information collected on the annual outcome report includes: (1) The number and percentage of E&T participants who retain employment 2 quarters and 4 quarters after completing E&T; (2) the median wages for participants with earnings 2 quarters after completion of E&T; (3) the number and percentage of participants that completed a training, education, work experience or on-the-job training component; (4) certain unique characteristics of SNAP E&T participants; and (5) additional reporting requirements for State

agencies that pledge to serve all at-risk Able-bodied Adults without Dependents (ABAWDs). State agencies are also required to identify appropriate outcome reporting measures for each proposed component that is intended to serve a threshold number of participants of at least 100 a year. The reporting measures for these components are identified in State agencies' E&T plans and the outcome data will be reported to the Food and Nutrition Service (FNS) in State agencies' annual outcome reports. State agencies are required to report outcome data annually.

With this information, FNS will be able to identify more, and less, successful E&T practices and work with State agencies to improve their E&T programs. This process is critical to building a more effective E&T operation nationally that will help move more individuals into the workforce.

State agencies use a combination of methods to collect the outcome data, including existing automated data systems, new data collection, sampling methods, and some direct contact with SNAP E&T participants. FNS estimates that the ongoing additional time burden will average no more than about 231 hours annually per State (about one and a half staff-months) on average (12,233 hours per year for all States).

The breakdown of the 231 hours is itemized in the table below. FNS believes this estimate may be somewhat high since more States have moved to collecting data through automated data systems which requires less time than data collected through direct contact with SNAP E&T participants.

Affected Public: State, Local and Tribal Government. Respondent groups identified include State agencies administering the SNAP E&T program in 50 States, the District of Columbia, Guam, and the U.S. Virgin Islands.

Estimated Number of Respondents: The total estimated number of respondents is 53 State agencies, including the agencies responsible for SNAP administration in 50 States, the District of Columbia, Guam and the U.S. Virgin Islands.

Estimated Number of Responses per Respondent: The 53 State agencies are required to submit data on the outcome report annually. State agencies will be required to maintain data to support 1 report per year.

Estimated Total Annual Responses: 53.

Estimated Time per Response: The estimated time of response, including recordkeeping and reporting is 32.796 hours per response.

Estimated Total Annual Burden on Respondents: 12,233 hours.
