

### Owner and Facility Data Review/ Verification and Data Disclaimer

We propose to provide Owners and Facilities the ability in NIMM to indicate for each of their animal records whether their data has been reviewed, updated, and verified using records in their possession. These review fields would enable Owners and Facilities the option to provide additional assurances regarding the quality of their data. The proposed Owner/Facility review fields include:

- *Data certified correct*—data has been reviewed and is correct, and/or errors were found and corrected by the Owner or Facility;
- *Data reviewed with errors*—data has been reviewed and errors have been identified but not corrected;
- *Data cannot be certified correct*—data has been reviewed but data cannot be confirmed correct (e.g., because the original records are no longer available); and
- *Data not reviewed*—the Owner or Facility indicates the data has not been reviewed for that animal, and thus, the accuracy of the data cannot be confirmed.

The review field would be left blank if no action has been taken by an Owner or Facility. Data submitted for inventory purposes in NIMM could not be provided by third parties or entered by NMFS from sources other than the marine mammal holders (e.g., websites or media/news releases); a marine mammal Owner or Facility must provide the data. However, information provided by third parties or found in the public domain may be submitted to Owners and Facilities for their review and appropriate action in compliance with the MMPA.

The inventory has gone through numerous data migrations and we acknowledge errors may exist. This may be particularly true for historical data where data cannot be recovered or verified (e.g., for facilities that no longer exist). In addition to providing users an option to indicate the accuracy of their data, we propose a disclaimer regarding the integrity of the NIMM inventory data as follows: “The data in NIMM, going back to 1972, has gone through numerous database migrations and errors may exist. There may be data that cannot be recovered or verified. NMFS relies on data self-reported by marine mammal Owners and Facilities. NMFS cannot provide any guarantee as to the accuracy, reliability, or completeness of information.”

### Request for Comments and Other Information

NMFS requests substantive comments and information regarding the above-proposed policies and procedures for implementing NIMM. We request that comments be specific and supported by scientific literature where appropriate to inform our decision-making. Comments must be received by 11:59 p.m. on April 16, 2019, to be considered.
