Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2010–0027]

Hours of Service of Drivers: WestRock, Application for Renewal of Exemption

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for renewal of exemption; request for comments.

SUMMARY: WestRock, formerly known as RockTenn has requested a renewal of its exemption from certain provisions of the hours-of-service (HOS) requirements for drivers of property-carrying vehicles. WestRock currently holds an exemption for the period April 17, 2014, through April 16, 2019 for 11 shipping department employees and occasional substitute commercial driver's license (CDL) holders who transport paper mill products over a 275-foot stretch of public road between its shipping and receiving locations. WestRock requested an exemption from the 14-hour rule and the requirement for 10 consecutive hours off duty before the start of the workday. The renewal of the exemption would allow these individuals occasionally to drive after the 14th hour after coming on duty and allow them to return to work following eight consecutive hours off-duty. FMCSA requests public comment on WestRock's application for exemption.

DATES: If granted, this exemption would be effective during the period of April 17, 2019 through April 16, 2024. Comments must be received on or before March 25, 2019.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from certain parts of the Federal Motor Carrier Safety Regulations. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also

provide an opportunity for public comment on the request.

The Agency reviews the safety analyses and the public comments, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)) with the reason for the grant or denial, and, if granted, the specific person or class of persons receiving the exemption, and the regulatory provision or provisions from which exemption is granted. The notice must also specify the effective period of the exemption (up to 5 years), and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. WestRock Application for Exemption

WestRock (USDOT 153734) operates a paper mill located in Chattanooga, Tennessee, its principal place of business. Its shipping and receiving departments are on opposite sides of the paper mill, requiring driver/employees to travel on a public road to shuttle trailers as needed. These drivers utilize this public road—Compress Street—an average of forty times per day to go from their shipping to receiving department and to load their trailers in the shipping department. These drivers do not transport any material farther than the paper mill lots and/or Compress Street. The distance traveled on Compress Street is approximately 275 feet in one direction, and one tractor is used to perform this work. Because the material being transported is received from or destined for other States, the local travel is interstate in nature.

The initial WestRock exemption application for relief from the HOS rule was submitted in 2009; a copy of the application is in the docket. That application fully described the nature of shipping operations encountered by CMV drivers employed by WestRock. On May 29, 2012, FMCSA granted WestRock the proposed exemption (77 FR 31684). FMCSA has since renewed this limited exemption [April 22, 2014 (77 FR 22571; and July 25, 2016 (81 FR 48496)]. The current exemption expires on April 16, 2019.

WestRock's shipping department currently works 12-hour shifts for 4 days, and then allows employees 4 days off duty. The schedule is subject to change. Usually there are two shipping department employees on each shift. One employee drives a fork-lift truck loading trailers with finished goods, and

the other operates the tractor shuttling trailers. These employees do not drive a CMV continuously during their shift(s).

At times, WestRock may operate on three 8-hour shifts with employees working a double (16-hour) shift when "rotating back." According to WestRock, the problem arises because of the double-shift, and also on occasion when a shipping department driver does not report for work as scheduled. On a Monday, for example, if an individual worked the weekend, his or her shift would normally have to "hurry back" within 8 hours. As a result of the mandatory 10 hours off-duty requirement for drivers, without the exemption WestRock would be required to schedule these drivers' shifts to start later than other employees. This would create at least 2 hours when the company cannot load or transport trailers with finished goods due to the absence of the drivers. Furthermore, as a result of the 14-hour driving windows, they would "work short" without the exemption, creating on-time delivery issues for other employees, who are allowed to work an entire "double shift" (16 hours) when necessary.

WestRock requested renewal of its exemption from 49 CFR part 395 for its shipping department CMV drivers, as well as others with a valid CDL who on occasion must substitute, allowing all such drivers to drive as late as the 16th hour since coming on duty and return to work with a minimum of at least 8 hours off duty. If exempt from the normal HOS requirements, these employees could follow the same work schedule as other WestRock employees on their shift, and would be able to work for the full 16 hours of a "double shift." WestRock could therefore minimize the chances of delayed shipments that might occur if their drivers were not allowed to work the same schedule as other employees.

WestRock acknowledged in its application that these drivers would still be subject to all of the other FMCSRs, including possessing a CDL, random drug testing, medical certification, and other driver-qualification requirements.

A copy of WestRock's application for exemption renewal is available for review in the docket for this notice.

Terms of the Exemption

Period of the Exemption

The requested exemption is proposed to be effective April 17, 2019, through 11:59 p.m. on April 16, 2024, for drivers employed by WestRock operating CMVs on Compress Street in Chattanooga,

Tennessee, between the company's shipping and receiving departments.

Extent of the Exemption

The exemption would be restricted to drivers employed by WestRock operating CMVs on the route specified above. This exemption would be strictly limited to the provisions of 49 CFR 395.3(a)(1), referring to a required minimum of 10 hours off duty before the start of a duty period, and 395.3(a)(2), commonly referred to as the "14-hour rule." When operationally necessary, drivers would be allowed up to a 16-hour duty period and no fewer than 8 hours off duty prior to the duty period.

Preemption

During the period this exemption would be in effect, no State would be allowed to enforce any law or regulation that conflicted with or was inconsistent with this exemption with respect to a firm or person operating under the exemption (49 U.S.C. 31315(d)).

Notification to FMCSA

WestRock would be required to notify FMCSA within 5 business days of any accident (as defined in 49 CFR 390.5), involving any of the motor carrier's CMVs operating under the terms of this exemption. The notification would be required to include the following information:

- a. Name of the Exemption: "WestRock"
- b. Date of the accident,
- c. City or town, and State, in which the accident occurred, or which is closest to the scene of the accident,
- d. Driver's name and driver's license State, number, and class,
- e. Co-Driver's name and driver's license State, number, and class,
- f. Vehicle company number and power unit license plate State and number,
- g. Number of individuals suffering physical injury,
- h. Number of fatalities,
- i. The police-reported cause of the accident,
- j. Whether the driver was cited for violation of any traffic laws, or motor carrier safety regulations, and
- k. The total driving time and the total on-duty time of the CMV driver at the time of the accident.

Reports filed under this provision would be emailed to MCPSD@DOT.GOV.

Termination

The FMCSA does not believe the drivers covered by this exemption, if granted, would experience any

deterioration of their safety record. However, should this occur, FMCSA would take all steps necessary to protect the public interest, including revocation of the exemption. The FMCSA would immediately revoke the exemption for failure to comply with its terms and conditions.

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to renew exemptions for 12 individuals from the requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) that interstate commercial motor vehicle (CMV) drivers have “no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause loss of consciousness or any loss of ability to control a CMV.” The exemptions enable these individuals who have had one or more seizures and are taking anti-seizure medication to continue to operate CMVs in interstate commerce.

DATES: Each group of renewed exemptions were applicable on the dates stated in the discussions below and will expire on the dates stated in the discussions below.

B. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy.

II. Background

On November 20, 2018, FMCSA published a notice announcing its decision to renew exemptions for 12 individuals from the epilepsy and seizure disorders prohibition in 49 CFR 391.41(b)(8) to operate a CMV in interstate commerce and requested comments from the public (83 FR 56683). The public comment period ended on December 20, 2018, and no comments were received.

As stated in the previous notice, FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would achieve a level of safety equivalent to, or greater than, the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(8).

The physical qualification standard for drivers regarding epilepsy found in 49 CFR 391.41(b)(8) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause the loss of consciousness or any loss of ability to control a CMV.

In addition to the regulations, FMCSA has published advisory criteria to assist Medical Examiners in determining whether drivers with certain medical conditions are qualified to operate a

CMV in interstate commerce. [49 CFR part 391, APPENDIX A TO PART 391—MEDICAL ADVISORY CRITERIA, section H. Epilepsy: § 391.41(b)(8), paragraphs 3, 4, and 5.]

III. Discussion of Comments

FMCSA received no comments in this proceeding.
