National Institutes of Health

Center for Scientific Review; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Cell Biology Integrated Review Group; Molecular and Integrative Signal Transduction Study Section.

Date: February 7–8, 2019.

Time: 8:00 a.m. to 5:30 p.m.

Agenda: To review and evaluate grant applications.

Place: Torrance Marriott Redondo Beach, 3635 Fashion Way, Torrance, Torrance, CA 90503.

Contact Person: Charles Selden, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of

Health, 6701 Rockledge Drive, Room 5187, MSC 7840, Bethesda, MD 20892, 301-451-3388, seldens@mail.nih.gov.

This meeting notice is being published less than 15 days in advance of the meeting due to the partial Government shutdown of December 2018.

(Catalogue of Federal Domestic Assistance Program Nos. 93.306, Comparative Medicine; 93.333, Clinical Research, 93.306, 93.333, 93.337, 93.393–93.396, 93.837–93.844, 93.846–93.878, 93.892, 93.893, National Institutes of Health, HHS)

Dated: January 25, 2019.

Sylvia L. Neal,

Program Analyst, Office of Federal Advisory Committee Policy.

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Treatment Episode Data Set (TEDS) (OMB No. 0930-0335)—Extension

The Substance Abuse and Mental Health Services Administration (SAMHSA) is requesting an extension to

collect the Treatment Episode Data Set (TEDS) data collection (OMB No. 0930-0335), which expires on March 31, 2019. TEDS is a compilation of client-level substance use treatment admission and discharge data submitted by states on clients treated in facilities that receive state funds. SAMHSA is also requesting an extension to collect the client-level mental health admission and update/discharge data (MH-TEDS/MH-CLD) submitted by states on clients treated in facilities that receive state funds (also OMB No. 0930-0335).

TEDS/MH-TEDS/MH-CLD data are collected to obtain information on the number of admissions and updates/ discharges at publicly funded substance use treatment and mental health services facilities and on the characteristics of clients receiving services at those facilities.

TEDS/MH-TEDS/MH-CLD also monitor trends in the demographic, substance use, and mental health characteristics of admissions. In addition, several of the data elements used to calculate performance measures for the Substance Abuse Block Grant (SABG) and Mental Health Block Grant (MHBG) applications are collected through the TEDS/MH-TEDS/MH-CLD.

Most states collect the TEDS/MH-TEDS/MH-CLD data elements from their treatment providers for their own administrative purposes and are able to submit a cross-walked extract of their data to TEDS/MH-TEDS/MH-CLD. No changes are expected in the TEDS/MH-TEDS/MH-CLD data elements that are collected.

Estimated annual burden for the separate TEDS/MH-TEDS/MH-CLD activities is as follows:

Type of activity	Number of respondents (states/ jurisdictions)	Responses per respondent	Total responses	Hours per response	Total burden hours
TEDS Admission Data	52	4	208	6.25	1,300
TEDS Discharge Data	52	4	208	8.25	1,716
TEDS Crosswalks	5	1	5	10	50
MH-CLD BCI Data	30	1	30	30	900
MH-CLD SHR Data	30	1	30	5	150
MH-TEDS Admissions Data	29	4	116	6.25	725
MH-TEDS Update/Discharge Data	29	4	116	8.25	957
MH-TEDS Crosswalks	10	1	10	10	100
Total	59	723	5,898

Written comments and recommendations concerning the proposed information collection should be sent by March 4, 2019 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs,

Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit

their comments to OMB via email to: OIRA_Submission@omb.eop.gov. Although commenters are encouraged to send their comments via email, commenters may also fax their comments to: 202-395-7285.

Commenters may also mail them to:
Office of Management and Budget,
Office of Information and Regulatory
Affairs, New Executive Office Building,
Room 10102, Washington, DC 20503.

Summer King,
Statistician.

Project: 2019 National Survey on Drug Use and Health (OMB No. 0930-0110)— Extension

The National Survey on Drug Use and
Health (NSDUH) is a survey of the U.S.
civilian, non-institutionalized
population aged 12 years old or older.
The data are used to determine the
prevalence of use of tobacco products,
alcohol, illicit substances, and illicit use
of prescription drugs. The results are
used by SAMHSA, the Office of
National Drug Control Policy (ONDCP),
federal government agencies, and other
organizations and researchers to

establish policy, to direct program
activities, and to better allocate
resources.

*This is an extension to the 2019
National Survey on Drug Use and
Health (NSDUH). There are no
substantive changes to the questionnaire
or changes in burden. The 2019 NSDUH
will continue to include questions on
medication-assisted treatment (MAT)
and kratom.*

As with all NSDUH surveys
conducted since 1999, including those
prior to 2002 when the NSDUH was
referred to as the National Household
Survey on Drug Abuse, the sample size
of the survey for 2019 will be sufficient
to permit prevalence estimates for each
of the 50 states and the District of
Columbia. The total annual burden
estimate is shown below in Table 1.

TABLE 1—ANNUALIZED ESTIMATED BURDEN FOR 2019 NSDUH

Instrument	Number of respondents	Responses per respondent	Total number of responses	Hours per response	Total burden hours
Household Screening	137,231	1	137,231	0.083	11,390
Interview	67,507	1	67,507	1.000	67,507
Screening Verification	4,116	1	4,116	0.067	276
Interview Verification	10,126	1	10,126	0.067	678
Total	137,231	218,980	79,851

Project: Data Resource Toolkit Protocol for the Crisis Counseling Assistance and Training Program (OMB No. 0930- 0270)—Reinstatement

The SAMHSA Center for Mental
Health Services (CMHS) as part of an
interagency agreement with the Federal
Emergency Management Agency
(FEMA) provides a toolkit to be used for
the purposes of collecting data on the
Crisis Counseling Assistance and
Training Program (CCP). The CCP
provides supplemental funding to states

and territories for individual and
community crisis intervention services
after a presidentially declared disaster.

The CCP has provided disaster mental
health services to millions of disaster
survivors since its inception, and, with
more than 30 years of accumulated
expertise, it has become an important
model for federal response to a variety
of catastrophic events. Recent CCP
grants include programs in Puerto Rico,
the U.S. Virgin Islands, Florida, Texas,
Tennessee, California, Missouri,
Louisiana, and West Virginia. These
grants have helped survivors after
disasters including Hurricanes Harvey,
Maria, and Irma in 2017; wildfires,
severe storms, flooding, and tornadoes
in 2016 and 2017; and landslides and
mudslides in 2016. CCPs address the
short-term mental health needs of
communities primarily through (a)
outreach and public education, (b)
individual and group counseling, and
(c) referral. Outreach and public
education serve primarily to normalize
reactions and to engage people who may
need further care. Crisis counseling
assists survivors in coping with current
stress and symptoms to return to pre-
disaster functioning. Crisis counseling
relies largely on “active listening,” and
