

§ 24.713 [Reserved]

§ 24.714 Partitioned licenses and disaggregated spectrum.

(a) *Eligibility.* (1) Parties seeking approval for partitioning and disaggregation shall request an authorization for partial assignment of a license pursuant to § 24.839.

(2) Broadband PCS licensees in spectrum blocks A, B, D, and E and broadband PCS C and F block licenses not subject to the eligibility requirements of § 24.709 may apply to partition their licensed geographic service area or disaggregate their licensed spectrum at any time following the grant of their licenses.

(3) Broadband PCS licensees that acquired C or F block licenses in closed bidding subject to the eligibility requirements of § 24.709 may partition their licensed geographic service area or disaggregate their licensed spectrum at any time to an entity that meets the eligibility criteria set forth in § 24.709 at the time the request for partial assignment of license is filed or to an entity that holds license(s) for frequency blocks C and F that met the eligibility criteria set forth in § 24.709 at the time of receipt of such license(s). Partial assignment applications seeking partitioning or disaggregation of broadband PCS licenses in spectrum blocks C and F must include an attachment demonstrating compliance with this section.

(b) *Technical standards*—(1) *Partitioning.* In the case of partitioning, applicants and licensees must file FCC Form 603 pursuant to § 1.948 of this chapter and list the partitioned service area on a schedule to the application. The geographic coordinates must be specified in degrees, minutes, and seconds to the nearest second of latitude and longitude and must be based upon the 1983 North American Datum (NAD83).

(2) *Disaggregation.* Spectrum may be disaggregated in any amount.

(3) *Combined partitioning and disaggregation.* The Commission will consider requests for partial assignment of licenses that propose combinations of partitioning and disaggregation.

(c) *Installment payments*—(1) *Apportioning the balance on installment payment plans.* When a winning bidder elects to pay for its license through an installment payment plan pursuant to §§ 1.2110(g) of this chapter or 24.716, and partitions its licensed area or disaggregates spectrum to another party, the outstanding balance owed by the licensee on its installment payment plan (including accrued and unpaid interest) shall be apportioned between the licensee and partitionee or disaggregatee. Both parties will be responsible for paying their proportionate share of the outstanding balance to the U.S. Treasury. In the case of partitioning, the balance shall be apportioned based upon the ratio of the population of the partitioned area to the population of the entire original license area calculated based upon the most recent census data. In the case of disaggregation, the balance shall be apportioned based upon the ratio of the amount of spectrum disaggregated to the amount of spectrum allocated to the licensed area.

(2) *Parties not qualified for installment payment plans.* (i) When a winning bidder elects to pay for its license through an installment payment plan, and partitions its license or disaggregates spectrum to another party that would not qualify for an installment payment plan or elects not to pay its share of the license through installment payments, the outstanding balance owed by the licensee (including accrued and unpaid interest) shall be apportioned according to § 24.714(c)(1)).

(ii) The partitionee or disaggregatee shall, as a condition of the approval of the partial assignment application, pay its entire pro rata amount within 30 days of Public Notice conditionally granting the partial assignment application. Failure to meet this condition will result in a rescission of the grant of the partial assignment application.

(iii) The licensee shall be permitted to continue to pay its pro rata share of the outstanding balance and shall receive new financing documents (promissory note, security agreement) with a revised payment obligation, based on the remaining amount of time on the original installment payment schedule. These financing documents will replace

the licensee's existing financing documents, which shall be marked "superse- ded" and returned to the licensee upon receipt of the new financing documents. The original interest rate, es- tablished pursuant to § 1.2110(g)(3)(i) of this chapter at the time of the grant of the initial license in the market, shall continue to be applied to the licensee's portion of the remaining government obligation. The Commission will re- quire, as a further condition to ap- proval of the partial assignment appli- cation, that the licensee execute and return to the U.S. Treasury the new fi- nancing documents within 30 days of the Public Notice conditionally grant- ing the partial assignment application. Failure to meet this condition will re- sult in the automatic cancellation of the grant of the partial assignment ap- plication.

(iv) A default on the licensee's pay- ment obligation will only affect the li- censee's portion of the market.

(3) *Parties qualified for installment pay- ment plans.* (i) Where both parties to a partitioning or disaggregation agree- ment qualify for installment payments, the partitionee or disaggregatee will be permitted to make installment pay- ments on its portion of the remaining government obligations, as calculated according to § 24.714(c)(1).

(ii) Each party will be required, as a condition to approval of the partial as- signment application, to execute sepa- rate financing documents (promissory note, security agreement) agreeing to pay their pro rata portion of the bal- ance due (including accrued and unpaid interest) based upon the installment payment terms for which they qualify under the rules. The financing docu- ments must be returned to the U.S. Treasury within thirty (30) days of the Public Notice conditionally granting the partial assignment application. Failure by either party to meet this condition will result in the automatic cancellation of the grant of the partial assignment application. The interest rate, established pursuant to § 1.2110(g)(3)(i) of this chapter at the time of the grant of the initial license in the market, shall continue to be ap- plied to both parties' portion of the balance due. Each party will receive a license for their portion of the parti-

tioned market or disaggregated spec- trum.

(iii) A default on an obligation will only affect that portion of the market area held by the defaulting party.

(iv) Partitionees and disaggregatees that qualify for installment payment plans may elect to pay some of their pro rata portion of the balance due in a lump sum payment to the U.S. Treas- ury and to pay the remaining portion of the balance due pursuant to an in- stallment payment plan.

(d) *License term.* The license term for a partitioned license area and for disaggregated spectrum shall be the re- mainder of the original licensee's li- cense term as provided for in § 24.15.

(e) *Construction requirements*—(1) *Re- quirements for partitioning.* Parties seek- ing authority to partition must meet one of the following construction re- quirements:

(i) The partitionee may certify that it will satisfy the applicable construc- tion requirements set forth in § 24.203 for the partitioned license area; or

(ii) The original licensee may certify that it has or will meet its five-year construction requirement and will meet the ten-year construction re- quirement, as set forth in § 24.203, for the entire license area. In that case, the partitionee must only satisfy the requirements for "substantial service," as set forth in § 24.16(a), for the parti- tioned license area by the end of the original ten-year license term of the li- censee.

(iii) Applications requesting partial assignments of license for partitioning must include a certification by each party as to which of the above con- struction options they select.

(iv) Partitionees must submit sup- porting documents showing compliance with the respective construction re- quirements within the appropriate five- and ten-year construction benchmarks set forth in § 24.203.

(v) Failure by any partitionee to meet its respective construction re- quirements will result in the auto- matic cancellation of the partitioned or disaggregated license without fur- ther Commission action.

(2) *Requirements for disaggregation.* Parties seeking authority to disaggregate must submit with their

partial assignment application a certification signed by both parties stating which of the parties will be responsible for meeting the five- and ten-year construction requirements for the PCS market as set forth in § 24.203. Parties may agree to share responsibility for meeting the construction requirements. Parties that accept responsibility for meeting the construction requirements and later fail to do so will be subject to license forfeiture without further Commission action.
