

Federal Communications Commission

§ 76.1902

system on any new frequency or frequencies in the aeronautical radio frequency bands (108–137 and 225–400 MHz). The notification shall be made on FCC Form 321. Such notification shall include:

(a) Legal name and local address of the MVPD;

(b) The names and FCC identifiers (e.g., CA0001) of the system communities affected, for a cable system, and the name and FCC identifier (e.g., CAB901), for other MVPDs;

(c) The names and telephone numbers of local system officials who are responsible for compliance with §§ 76.610 through 76.616 and § 76.1803;

(d) Carrier frequency, tolerance, and type of modulation of all carriers in the aeronautical bands at any location in the cable distribution system and the maximum of those average powers measured over a 2.5 kHz bandwidth as described in the introductory paragraph to this rule section;

(e) The geographical coordinates (in NAD83) of a point near the center of the system, together with the distance (in kilometers) from the designated point to the most remote point of the plant, existing or planned, that defines a circle enclosing the entire plant;

(f) Certification that the monitoring procedure used is in compliance with § 76.614 or description of the routine monitoring procedure to be used; and

(g) For MVPDs subject to § 76.611, the cumulative signal leakage index derived under § 76.611(a)(1) or the results of airspace measurements derived under § 76.611(a)(2), including a description of the method by which compliance with the basic signal leakage criteria is achieved and the method of calibrating the measurement equipment.

(h) Aeronautical Frequency Notifications, FCC Form 321, shall be personally signed either electronically or manually by the operator; by one of the partners, if the operator is a partnership; by an officer, if the operator is a corporation; by a member who is an officer, if the operator is an unincorporated association; or by any duly authorized employee of the operator.

(i) Aeronautical Frequency Notifications, FCC Form 321, may be signed by the operator's attorney in case of the

operator's physical disability or of his absence from the United States. The attorney shall in that event separately set forth the reasons why the FCC Form 321 was not signed by the operator. In addition, if any matter is stated on the basis of the attorney's belief only (rather than the attorney's knowledge), the attorney shall separately set forth the reasons for believing that such statements are true.

(j) The FCC Registration Number (FRN).

[68 FR 27003, May 19, 2003]

§ 76.1805 Alternative rate regulation agreements.

Small systems owned by small cable companies must file with the Commission a copy of any operative alternative rate regulation agreement entered into with a local franchising authority pursuant to § 76.934(g), within 30 days after its effective date.

Subpart W—Encoding Rules

SOURCE: 68 FR 66735, Nov. 28, 2003, unless otherwise noted.

§ 76.1901 Applicability.

(a) Each multi-channel video programming distributor shall comply with the requirements of this subpart.

(b) This subpart shall not apply to distribution of any content over the Internet, nor to a multichannel video programming distributor's operations via cable modem or DSL.

(c) With respect to cable system operators, this subpart shall apply only to cable services. This subpart shall not apply to cable modem services, whether or not provided by a cable system operator or affiliate.

§ 76.1902 Definitions.

(a) *Commercial advertising messages* shall mean, with respect to any service, program, or schedule or group of programs, commercial advertising messages other than:

(1) Advertising relating to such service itself or the programming contained therein,

(2) Interstitial programming relating to such service itself or the programming contained therein, or

(3) Any advertising which is displayed concurrently with the display of any part of such program(s), including but not limited to “bugs,” “frames” and “banners.”

(b) *Commercial audiovisual content* shall mean works that consist of a series of related images which are intrinsically intended to be shown by the use of machines, or devices such as projectors, viewers, or electronic equipment, together with accompanying sounds, if any, regardless of the nature of the material objects, such as films or tapes, in which the works are embodied, transmitted by a covered entity and that are:

(1) Not created by the user of a covered product, and

(2) Offered for transmission, either generally or on demand, to subscribers or purchasers or the public at large or otherwise for commercial purposes, not uniquely to an individual or a small, private group.

(c) *Commercially adopted access control method* shall mean any commercially adopted access control method including digitally controlled analog scrambling systems, whether now or hereafter in commercial use.

(d) *Copy never* shall mean, with respect to commercial audiovisual content, the encoding of such content so as to signal that such content may not be copied by a covered product.

(e) *Copy one generation* shall mean, with respect to commercial audiovisual content, the encoding of such content so as to permit a first generation of copies to be made by a covered product but not copies of such first generation of copies.

(f) *Copy no more* shall mean, with respect to commercial audiovisual content, the encoding of such content so as to reflect that such content is a first generation copy of content encoded as copy one generation and no further copies are permitted.

(g) *Covered product* shall mean a device used by consumers to access commercial audiovisual content offered by a covered entity (excluding delivery via cable modem or the Internet); and any device to which commercial audiovisual content so delivered from such covered product may be passed, directly or indirectly.

(h) *Covered entity* shall mean any entity that is subject to this subpart.

(i) *Defined business model* shall mean video-on-demand, pay-per view, pay television transmission, non-premium subscription television, free conditional access delivery and unencrypted broadcast television.

(j) *Encode* shall mean, in the transmission of commercial audiovisual content, to pass, attach, embed, or otherwise apply to, associate with, or allow to persist in or remain associated with such content, data or information which when read or responded to in a covered device has the effect of preventing, pausing, or limiting copying, or constraining the resolution of a program when output from the covered device.

(k) *Encoding rules* shall mean the requirements or prohibitions describing or limiting encoding of audiovisual content as set forth in this subpart.

(l) *Free conditional access delivery* shall mean a delivery of a service, program, or schedule or group of programs via a commercially-adopted access control method, where viewers are not charged any fee (other than government-mandated fees) for the reception or viewing of the programming contained therein, other than unencrypted broadcast television.

(m) *Non-premium subscription television* shall mean a service, or schedule or group of programs (which may be offered for sale together with other services, or schedule or group of programs), for which subscribers are charged a subscription fee for the reception or viewing of the programming contained therein, other than pay television, subscription-on-demand and unencrypted broadcast television. By way of example, “basic cable service” and “extended basic cable service” (other than unencrypted broadcast television) are “non-premium subscription television.”

(n) *Pay-per-view* shall mean a delivery of a single program or a specified group of programs, as to which each such single program is generally uninterrupted by commercial advertising messages and for which recipients are charged a separate fee for each program or specified group of programs. The term pay-per-view shall also include delivery of a

single program for which multiple start times are made available at time intervals which are less than the running time of such program as a whole. If a given delivery qualifies both as pay-per-view and a pay television transmission, then, for purposes of this subpart, such delivery shall be deemed pay-per-view rather than a pay television transmission.

(o) *Pay television transmission* shall mean a transmission of a service or schedule of programs, as to which each individual program is generally uninterrupted by commercial advertising messages and for which service or schedule of programs subscribing viewers are charged a periodic subscription fee, such as on a monthly basis, for the reception of such programming delivered by such service whether separately or together with other services or programming, during the specified viewing period covered by such fee. If a given delivery qualifies both as a pay television transmission and pay-per-view, video-on-demand, or subscription-on-demand then, for purposes of this subpart, such delivery shall be deemed pay-per-view, video-on-demand or subscription-on-demand rather than a pay television transmission.

(p) *Program* shall mean any work of commercial audiovisual content.

(q) *Subscription-on-demand* shall mean the delivery of a single program or a specified group of programs for which:

(1) A subscriber is able, at his or her discretion, to select the time for commencement of exhibition thereof,

(2) Where each such single program is generally uninterrupted by commercial advertising messages; and

(3) For which program or specified group of programs subscribing viewers are charged a periodic subscription fee for the reception of programming delivered by such service during the specified viewing period covered by the fee. In the event a given delivery of a program qualifies both as a pay television transmission and subscription-on-demand, then for purposes of this subpart, such delivery shall be deemed subscription-on-demand rather than a pay television transmission.

(r) *Undefined business model* shall mean a business model that does not

fall within the definition of a defined business model.

(s) *Unencrypted broadcast television* means the retransmission by a covered entity of any service, program, or schedule or group of programs originally broadcast in the clear without use of a commercially-adopted access control method by a terrestrial television broadcast station regardless of whether such covered entity employs an access control method as a part of its retransmission.

(t) *Video-on-demand* shall mean a delivery of a single program or a specified group of programs for which:

(1) Each such individual program is generally uninterrupted by commercial advertising messages;

(2) Recipients are charged a separate fee for each such single program or specified group of programs; and

(3) A recipient is able, at his or her discretion, to select the time for commencement of exhibition of such individual program or specified group of programs. In the event a delivery qualifies as both video-on-demand and a pay television transmission, then for purposes of this subpart, such delivery shall be deemed video-on-demand.

[68 FR 66735, Nov. 28, 2003, as amended at 69 FR 4082, Jan. 28, 2004]

§ 76.1903 Interfaces.

A covered entity shall not attach or embed data or information with commercial audiovisual content, or otherwise apply to, associate with, or allow such data to persist in or remain associated with such content, so as to prevent its output through any analog or digital output authorized or permitted under license, law or regulation governing such covered product.

§ 76.1904 Encoding rules for defined business models.

(a) Commercial audiovisual content delivered as unencrypted broadcast television shall not be encoded so as to prevent or limit copying thereof by covered products or, to constrain the resolution of the image when output from a covered product.

(b) Except for a specific determination made by the Commission pursuant to a petition with respect to a defined business model other than unencrypted
