

**§ 65.304**

**§ 65.304 Capital structure.**

Proportion in the capital structure =

The proportion of each cost of capital component in the capital structure is equal to:

$$\frac{\text{Book Value of particular component}}{\text{Book Value of Debt} + \text{Book Value of Preferred Stock} + \text{Book Value of Equity}}$$

Where:

“Book Value of particular component” is the total of the book values of that component for all local exchange carriers with annual revenues equal to or above the indexed revenue threshold as defined in §32.9000.

“Book Value of Debt+Book Value of Preferred Stock+Book Value of Equity” is the total of the book values of all the components for all local exchange carriers with annual revenues equal to or above the indexed revenue threshold as defined in §32.9000.

The total of all proportions shall equal 1.00.

**§ 65.305 Calculation of the weighted average cost of capital.**

(a) The composite weighted average cost of capital is the sum of the cost of debt, the cost of preferred stock, and the cost of equity, each weighted by its proportion in the capital structure of the telephone companies.

(b) Unless the Commission determines to the contrary in a prescription proceeding, the composite weighted average cost of debt and cost of preferred stock is the composite weight computed in accordance with § 65.304 multiplied by the composite cost of the component computed in accordance with § 65.301 or § 65.302, as applicable. The composite weighted average cost of equity will be determined in each prescription proceeding.

[60 FR 28546, June 1, 1995]

**§ 65.306 Calculation accuracy.**

In a prescription proceeding, the final determinations of the cost of equity, cost of debt, cost of preferred stock and their capital structure weights shall be accurate to two decimal places.

**§ 65.450 Net income.**

(a) Net income shall consist of all revenues derived from the provision of interstate telecommunications services regulated by this Commission less expenses recognized by the Commission as necessary to the provision of these services. The calculation of expenses entering into the determination of net income shall include the interstate portion of plant specific operations (Accounts 6110-6441), plant nonspecific operations (Accounts 6510-6565), customer operations (Accounts 6610-6623), corporate operations (Accounts 6720-6790), other operating income and expense (Account 7100), and operating taxes (Accounts 7200-7250), except to the extent this Commission specifically provides to the contrary.

(b) Gains and losses related to the disposition of plant in service items, shall be handled as follows:

(1) Gains related to property sold to others and leased back under capital leases for use in telecommunications services shall be recorded in Account 4300, Other long-term liabilities and deferred credits, and credited to Account 6563, Amortization expense—tangible, over the amortization period established for the capital lease;

(2) Gains or losses related to the disposition of land and other nondepreciable items recorded in Account 7100 (Other operating income and expense) shall be included in net income for ratemaking purposes, but adjusted to reflect the relative amount of time such property was used in regulated operations and included in the rate base; and

(3) Proceeds related to the disposition of property depreciated on a group basis and used jointly in regulated and nonregulated activities, including sale-leaseback arrangements for property
