For both exchange and interexchange carriers subject to this part, interstate earnings shall be measured over a two

year period to determine compliance with the maximum allowable rate of return. The review periods shall commence on January 1 in odd-numbered years and shall end on December 31 in even-numbered years.

§ 65.702 Measurement of interstate service earnings.

(a) For exchange carriers, earnings shall be measured separately for each access service category for purposes of determining compliance with the maximum allowable rate of return. The access service categories shall be: an aggregated category consisting of Special Access, § 69.113, and Contribution Charges for Special Access Expanded Interconnection, § 69.122; Connection Charges for Expanded Interconnection, § 69.121; Common Line, §§ 69.104–69.105; and an aggregated category consisting of Line Termination, § 69.106, Intercept, § 69.108, Local Switching, § 69.107, Transport, §§ 69.110–69.112, 69.124, 69.125, and Information, § 69.109. (b) For exchange carriers, earnings shall be measured for purposes of determining compliance with the maximum allowable rates of return separately for each study area; provided, however, that if the carrier has filed or concurred in access tariffs aggregating costs and rates for two or more study areas, the earnings will be determined for the aggregated study areas rather than for each study area separately. If an exchange carrier has not utilized the same level of study area aggregation during the entire two-year earnings review period, then the carrier's earnings will be measured for the entire two-year period on the basis of the tariffs in effect at the end of the second year of the two-year review period; provided, however, that if tariffs representing a higher level of study area aggregation were not in effect for at least eight months in the second year,
