

§ 54.307

47 CFR Ch. I (10–1–15 Edition)

safety valve loop cost expense adjustment for all eligible study areas pursuant to this paragraph. The safety valve loop cost expense adjustment of an individual rural incumbent local exchange carrier also may be further reduced as described in paragraph (d)(3) of this section.

(f) Once an acquisition is complete, the acquiring rural incumbent local exchange carrier shall provide written notice to the Administrator that it has acquired access lines that may be eligible for safety valve support. Rural telephone companies also shall provide written notice to the Administrator defining their index year for those years after the first year of operation for purposes of calculating the safety valve loop cost expense adjustment.

[70 FR 10060, Mar. 2, 2005, as amended at 76 FR 73871, Nov. 29, 2011; 79 FR 39188, July 9, 2014]

§ 54.307 Support to a competitive eligible telecommunications carrier.

(a) *Calculation of support.* A competitive eligible telecommunications carrier shall receive universal service support to the extent that the competitive eligible telecommunications carrier captures the subscriber lines of an incumbent local exchange carrier (LEC) or serves new subscriber lines in the incumbent LEC's service area.

(1) A competitive eligible telecommunications carrier serving loops in the service area of a rural incumbent local exchange carrier, as that term is defined in § 54.5 of this chapter, shall receive support for each line it serves in a particular service area based on the support the incumbent LEC would receive for each such line, disaggregated by cost zone if disaggregation zones have been established within the service area pursuant to § 54.315 of this subpart. A competitive eligible telecommunications carrier serving loops in the service area of a non-rural incumbent local exchange carrier shall receive support for each line it serves in a particular wire center based on the support the incumbent LEC would receive for each such line. A competitive eligible telecommunications carrier serving loops in the service area of a rate-of-return carrier shall be eligible to receive Interstate

Common Line Support for each line it serves in the service area in accordance with the formula in § 54.901.

(2) A competitive eligible telecommunications carrier that uses switching purchased as unbundled network elements pursuant to § 51.307 of this chapter to provide the supported services shall receive the lesser of the unbundled network element price for switching or the per-line DEM support of the incumbent LEC, if any. A competitive eligible telecommunications carrier that uses loops purchased as unbundled network elements pursuant to § 51.307 of this chapter to provide the supported services shall receive the lesser of the unbundled network element price for the loop or the incumbent LEC's per-line payment from the high-cost loop support, LTS, and Interstate Common Line Support mechanisms, if any. The incumbent LEC providing nondiscriminatory access to unbundled network elements to such competitive eligible telecommunications carrier shall receive the difference between the level of universal service support provided to the competitive eligible telecommunications carrier and the per-customer level of support that the incumbent LEC would have received.

(3) A competitive eligible telecommunications carrier that provides the supported services using neither unbundled network elements purchased pursuant to § 51.307 of this chapter nor wholesale service purchased pursuant to section 251(c)(4) of the Act will receive the full amount of universal service support that the incumbent LEC would have received for that customer.

(b) In order to receive support pursuant to this subpart, a competitive eligible telecommunications carrier must report to the Administrator the number of working loops it serves in a service area pursuant to the schedule set forth in paragraph (c) of this section. For a competitive eligible telecommunications carrier serving loops in the service area of a rural incumbent local exchange carrier, as that term is defined in § 54.5, the carrier must report, by customer class, the number of working loops it serves in the service area, disaggregated by cost zone if disaggregation zones have been

established within the service area pursuant to § 54.315. For a competitive eligible telecommunications carrier serving loops in the service area of a non-rural telephone company, the carrier must report the number of working loops it serves in the service area, by customer class if the non-rural telephone company receives Interstate Common Line Support pursuant to § 54.901 and by disaggregation zone if disaggregation zones have been established within the service area pursuant to § 54.315 of this subpart, and the number of working loops it serves in each wire center in the service area. For universal service support purposes, working loops are defined as the number of working Exchange Line C&WF loops used jointly for exchange and message telecommunications service, including C&WF subscriber lines associated with pay telephones in C&WF Category 1, but excluding WATS closed end access and TWX service. Competitive eligible telecommunications carriers providing mobile wireless service in an incumbent LEC's service area shall use the customer's billing address for purposes of identifying the service location of a mobile wireless customer in a service area.

(c) A competitive eligible telecommunications carrier must submit the data required pursuant to paragraph (b) of this section according to the schedule.

(1) No later than July 31st of each year, submit data as of December 31st of the previous calendar year;

(2) No later than September 30th of each year, submit data as of March 31st of the existing calendar year;

(3) No later than December 30th of each year, submit data as of June 30th of the existing calendar year;

(4) No later than March 30th of each year, submit data as of September 30th of the previous calendar year.

(d) *Newly designated eligible telecommunications carriers.* Notwithstanding the deadlines in paragraph (c) of this section, a carrier shall be eligible to receive support as of the effective date of its designation as an eligible telecommunications carrier under section 214(e)(2) or (e)(6), provided that it submits the data required pursuant to paragraph (b) of this section within

60 days of that effective date. Thereafter, the eligible telecommunications carrier must submit the data required in paragraph (b) of this section pursuant to the schedule in paragraph (c) of this section.

(e) *Support Beginning January 1, 2012.* Competitive eligible telecommunications carriers will, beginning January 1, 2012, receive support based on the methodology described in this paragraph and not based on paragraph (a) of this section.

(1) *Baseline Support Amount.* Each competitive eligible telecommunication carrier will have a "baseline support amount" equal to its total 2011 support in a given study area, or an amount equal to \$3,000 times the number of reported lines for 2011, whichever is lower. Each competitive eligible telecommunications carrier will have a "monthly baseline support amount" equal to its baseline support amount divided by twelve.

(i) "Total 2011 support" is the amount of support disbursed to a competitive eligible telecommunication carrier for 2011, without regard to prior period adjustments related to years other than 2011 and as determined by the Administrator on January 31, 2012.

(ii) For the purpose of calculating the \$3,000 per line limit, the average of lines reported by a competitive eligible telecommunication carrier pursuant to line count filings required for December 31, 2010, and December 31, 2011 shall be used. The \$3,000 per line limit shall be applied to support amounts determined for each incumbent study area served by the competitive eligible telecommunications carrier.

(2) *Monthly Support Amounts.* Competitive eligible telecommunications carriers shall receive the following support amounts, except as provided in paragraphs (e)(3) through (e)(6) of this section.

(i) From January 1, 2012, to June 30, 2012, each competitive eligible telecommunications carrier shall receive its monthly baseline support amount each month.

(ii) From July 1, 2012 to June 30, 2013, each competitive eligible telecommunications carrier shall receive 80 percent of its monthly baseline support amount each month.

(iii) From July 1, 2013, to June 30, 2014, each competitive eligible telecommunications carrier shall receive 60 percent of its monthly baseline support amount each month.

(iv) From July 1, 2014, to June 30, 2015, each competitive eligible telecommunications carrier shall receive 40 percent of its monthly baseline support amount each month.

(v) From July 1, 2015, to June 30, 2016, each competitive eligible telecommunications carrier shall receive 20 percent of its monthly baseline support amount each month.

(vi) Beginning July 1, 2016, no competitive eligible telecommunications carrier shall receive universal service support pursuant to this section.

(3) *Delayed Phase Down for Remote Areas in Alaska.* Certain competitive eligible telecommunications carriers serving remote areas in Alaska shall have their support phased down on a later schedule than that described in paragraph (e)(2) of this section.

(i) *Remote Areas in Alaska.* For the purpose of this paragraph, “remote areas in Alaska” includes all of Alaska except;

(A) The ACS-Anchorage incumbent study area;

(B) The ACS-Juneau incumbent study area;

(C) The fairbankszone1 disaggregation zone in the ACS-Fairbanks incumbent study area; and

(D) The Chugiak 1 and 2 and Eagle River 1 and 2 disaggregation zones of the Matanuska Telephone Association incumbent study area.

(ii) *Carriers Subject to Delayed Phase Down.* A competitive eligible telecommunications carrier shall be subject to the delayed phase down described in paragraph (e)(3) of this section to the extent that it serves remote areas in Alaska, and it certified that it served covered locations in its September 30, 2011, filing of line counts with the Administrator. To the extent a competitive eligible telecommunications carrier serving Alaska is not subject to the delayed phase down, it will be subject to the phase down of support on the schedule described in paragraph (e)(2) of this section.

(iii) *Baseline for Delayed Phase Down.* For purpose of the delayed phase down

for remote areas in Alaska, the baseline amount for each competitive eligible telecommunications carrier subject to the delayed phase down shall be the annualized monthly support amount received for June 2014 or the last full month prior to the implementation of Mobility Fund Phase II, whichever is later.

(iv) *Monthly Support Amounts.* Competitive eligible telecommunications carriers subject to the delayed phase down for remote areas in Alaska shall receive the following support amounts, except as provided in paragraphs (e)(4) through (e)(6) of this section.

(A) From July 1, 2014 to June 30, 2015, each competitive eligible telecommunications carrier shall receive 80 percent of its monthly baseline support amount each month.

(B) From July 1, 2015, to June 30, 2016, each competitive eligible telecommunications carrier shall receive 60 percent of its monthly baseline support amount each month.

(C) From July 1, 2016, to June 30, 2017, each competitive eligible telecommunications carrier shall receive 40 percent of its monthly baseline support amount each month.

(D) From July 1, 2017, to June 30, 2018, each competitive eligible telecommunications carrier shall receive 20 percent of its monthly baseline support amount each month.

(E) Beginning July 1, 2018, no competitive eligible telecommunications carrier serving remote areas in Alaska shall receive universal service support pursuant to this section.

(v) *Interim Support for Remote Areas in Alaska.* From January 1, 2012, until June 30, 2014 or the last full month prior to the implementation of Mobility Fund Phase II, whichever is later, competitive eligible telecommunications carriers subject to the delayed phase down for remote areas in Alaska shall continue to receive the support, as calculated by the Administrator, that each competitive telecommunications carrier would have received under the frozen per-line support amount as of December 31, 2011 capped at \$3,000 per year, provided that the total amount of support for all such

competitive eligible telecommunications carriers shall be capped pursuant to paragraph (e)(3)(v)(A) of this section.

(A) *Cap Amount.* The total amount of support available on an annual basis for competitive eligible telecommunications carriers subject to the delayed phase down for remote areas in Alaska shall be equal to the sum of “total 2011 support,” as defined in paragraph (e)(1)(i) of this section, received by all competitive eligible telecommunications carriers subject to the delayed phase down for serving remote areas in Alaska.

(B) *Reduction Factor.* To effectuate the cap, the Administrator shall apply a reduction factor as necessary to the support that would otherwise be received by all competitive eligible telecommunications carriers serving remote areas in Alaska subject to the delayed phase down. The reduction factor will be calculated by dividing the total amount of support available amount by the total support amount calculated for those carriers in the absence of the cap.

(4) *Further reductions.* If a competitive eligible telecommunications carrier ceases to provide services to high-cost areas it had previously served, the Commission may reduce its baseline support amount.

(5) *Implementation of Mobility Fund Phase II Required.* In the event that the implementation of Mobility Fund Phase II has not occurred by June 30, 2014, competitive eligible telecommunications carriers will continue to receive support at the level described in paragraph (e)(2)(iii) of this section until Mobility Fund Phase II is implemented. In the event that Mobility Fund Phase II for Tribal lands is not implemented by June 30, 2014, competitive eligible telecommunications carriers serving Tribal lands shall continue to receive support at the level described in paragraph (e)(2)(iii) of this section until Mobility Fund Phase II for Tribal lands is implemented, except that competitive eligible telecommunications carriers serving remote areas in Alaska and subject to paragraph (e)(3) of this section shall continue to receive support at the level described in paragraph (e)(3)(v) of this section.

(6) *Eligibility after Implementation of Mobility Fund Phase II.* If a competitive eligible telecommunications carrier becomes eligible to receive high-cost support pursuant to the Mobility Fund Phase II, it will cease to be eligible for phase-down support in the first month for which it receives Mobility Fund Phase II support.

(7) *Line Count Filings.* Competitive eligible telecommunications carriers, except those subject to the delayed phase down described in paragraph (e)(3) of this section, shall no longer be required to file line counts beginning January 1, 2012. Competitive eligible telecommunications carriers subject to the delayed phase down described in paragraph (e)(3) of this section shall no longer be required to file line counts beginning July 1, 2014, or the date after the first line count filing following the implementation of Mobility Fund Phase II, whichever is later.

[62 FR 32948, June 17, 1997, as amended at 63 FR 2128, Jan. 13, 1998; 64 FR 67431, Dec. 1, 1999; 65 FR 26516, May 8, 2000; 66 FR 30087, June 5, 2001; 66 FR 59726, Nov. 30, 2001; 68 FR 31623, May 28, 2003; 69 FR 34602, June 22, 2004; 70 FR 29979, May 25, 2005; 76 FR 73871, Nov. 29, 2011; 77 FR 14302, Mar. 9, 2012; 77 FR 30913, May 24, 2012; 77 FR 52618, Aug. 30, 2012]

§ 54.308 Broadband public interest obligations for recipients of high-cost support.

(a) Rate-of-return carrier recipients of high-cost support are required to offer broadband service at actual speeds of at least 10 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas, at rates that are reasonably comparable to rates for comparable offerings in urban areas, upon reasonable request. If a request for broadband service at actual speeds of at least 10 Mbps downstream/1 Mbps upstream is unreasonable, and offering broadband service at actual speeds of at least 4 Mbps downstream/1 Mbps upstream is reasonable, rate-of-return recipients of high-cost support are required to offer broadband service at actual speeds of at least 4 Mbps downstream/1 Mbps upstream. For purposes
