NOTES: 1. The expired station license must be retained in the station records until the first Commission inspection after the expiration date.

- 2. Alternatively, a list of coast stations maintained by the licensee with which communications are likely to be conducted, showing watch-keeping hours, frequencies and charges, is authorized.
- 3. Required only if station provides a service to ocean-going vessels.
- 4. Certification of a Great Lakes Agreement inspection may be made by either a log entry or issuance of a Great Lakes Agreement certificate. Radiotelephone logs containing entries certifying that a Great Lakes Agreement inspection has been conducted must be retained and be available for inspec-

tion by the FCC for 2 years after the date of the inspection.

5. The requirements for having the GMDSS Master Plan, NGA Publication 117, Admiralty List of Radio Signals or IMO Circ. 7 are satisfied by having any one of those four documents.

[68 FR 46970, Aug. 7, 2003, as amended at 78 FR 23156, Apr. 18, 2013]

§ 80.403 Availability of documents.

Station documents must be readily available to the licensed operator(s) on duty during the hours of service of the station and to authorized Commission employees upon request.
