

§ 202.3

47 CFR Ch. II (10–1–20 Edition)

(3) The Secretary of State, in accordance with assigned responsibilities within the Diplomatic Telecommunications Service, shall plan for and provide, operate and maintain rapid, reliable and secure telecommunications services to those Federal entities represented at United States diplomatic missions and consular offices overseas. This responsibility shall include the provision and operation of domestic telecommunications in support of assigned national security and emergency preparedness responsibilities.

(4) The Secretary of Defense shall:

(i) Plan for and provide, operate and maintain telecommunications services and facilities adequate to support the National Command Authorities and to execute responsibilities assigned by Executive Order 12333, December 4, 1981 (46 FR 59941; 3 CFR, 1981 Comp., p. 200).

(ii) Ensure that the Director of the National Security Agency provides the technical support necessary to develop and maintain plans adequate to provide for the security and protection of national security and emergency preparedness telecommunications.

(iii) Provide protection for interstate or foreign communication as directed by the President when the public interest requires under section 706(b) of the Communications Act (47 U.S.C. 606(b)).

(iv) In consultation with the Secretary of Transportation, develop policy, plans and procedures adequate to enable a transfer of control over radio stations in the Aviation Service and aboard vessels in the Maritime Service to the Department of Defense during a national emergency pursuant to § 202.1(b)(3) of these regulations.

(5) The Attorney General shall, as necessary, review for legal sufficiency, including consistency with the anti-trust laws, all policies, plans or procedures developed pursuant to these regulations.

(6) The Director, Central Intelligence Agency, shall plan for and provide, operate and maintain telecommunications services adequate to support the Agency's assigned responsibilities, including the dissemination of intelligence within the Federal government.

(7) Except as otherwise assigned pursuant to these regulations, the Administrator of General Services shall en-

sure that Federally owned or managed domestic communications facilities and services meet the NS/EP requirements of Federal civilian departments, agencies and entities. The Administrator shall perform these responsibilities consistent with policy guidance of the Director of the Office of Management and Budget.

(8) The Secretary of the Interior shall develop and execute emergency plans with respect to the administration of telecommunications activities in the territorial and trusteeship areas under the jurisdiction of the United States and within the responsibility previously assigned to him by appropriate laws and other authority.

(9) The Federal Communications Commission, consistent with its statutory authority, shall:

(i) Review the policies, plans and procedures of all entities licensed or regulated by the Commission that are developed to provide national security and emergency preparedness telecommunications services to ensure that such policies, plans and procedures are consistent with the public interest, convenience and necessity.

(ii) Perform such functions as required by law with respect to all entities licensed or regulated by the Commission, including (but not limited to) the extension, discontinuance or reduction of common carrier facilities or services; the control of common carrier rates, charges, practices and classifications; the construction, authorization, activation, deactivation or closing of radio stations, services and facilities; the assignment of radio frequencies to Commission licensees; the investigation of violations of pertinent law and regulation; and the initiation of appropriate enforcement actions.

(iii) Develop policy, plans and procedures adequate to execute the responsibilities assigned pursuant to these regulations under all conditions of crisis or emergency.

(iv) Consult as appropriate with authorized officials of the NCS to ensure continued coordination of their respective NCS activities.

(10) The National Communications System (comprised of the Executive Agent for the NCS, the NCS Committee of Principals, and the Manager, NCS)

shall assist the President, the Director of the Office of Science and Technology Policy, National Security Advisor and the Director of the Office of Management and Budget in the exercise of national security and emergency preparedness telecommunications functions and responsibilities and in the coordination of the planning for and provision of national security and emergency preparedness communications for the Federal government under all circumstances, including crisis or emergency, attack, recovery and reconstruction.

(11) The Executive Agent for the NCS shall:

(i) Ensure that the NCS conducts unified planning and operations, in order to coordinate the development and maintenance of an effective and responsive capability for meeting the domestic and international national security and emergency preparedness needs of the Federal government.

(ii) Ensure that the activities of the NCS are conducted in conjunction with the emergency management activities of the Federal Emergency Management Agency.

(12) The Manager, NCS shall:

(i) Develop for consideration by the NCS Committee of Principals and the Executive Agent:

(A) A recommended evolutionary telecommunications architecture designed to meet current and future Federal government national security and emergency preparedness telecommunications requirements.

(B) Plans and procedures for the management, allocation and use, including the establishment of priorities or preferences, of Federally owned or leased telecommunications assets under all conditions of crisis or emergency.

(C) Plans, procedures and standards for minimizing or removing technical impediments to the interoperability of government-owned and/or commercially provided telecommunications systems.

(D) Test and exercise programs and procedures for the evaluation of the capability of the Nation's telecommunications resources to meet national security and emergency preparedness telecommunications requirements.

(E) Alternative mechanisms for funding, through the budget review process, NS/EP telecommunications initiatives which benefit multiple Federal departments, agencies or entities. Those mechanisms recommended by the NCS Committee of Principals and the Executive Agent shall be submitted to the Executive Office of the President.

(ii) Implement and administer any approved plans or programs as assigned, including any system of priorities and preferences for the provision of telecommunications service, in consultation with the NCS Committee of Principals and the Federal Communications Commission, to the extent practicable or otherwise required by law or regulation.

(iii) Implement, with the assistance of appropriate Federal agencies, a decentralized National Telecommunications Management Structure (NTMS) capable of functioning independently in support of appropriate authority within the terms and guidelines delineated in the White House approved Implementation Concept.

(iv) Conduct technical studies or analyses, and examine research and development programs, for the purpose of identifying, for consideration by the NCS Committee of Principals and the Executive Agent, improved approaches which may assist Federal entities in fulfilling national security and emergency preparedness telecommunications objectives.

(v) Develop an NCS Issuance System of official documents to implement, establish, guide, describe or explain organizational responsibilities, authorities, policies and procedures.

(13) The NCS Committee of Principals shall:

(i) Serve as the forum in which each member of the Committee may review, evaluate and present views, information and recommendations concerning ongoing or prospective national security and emergency preparedness telecommunications programs of the NCS and the entities represented on the Committee.

(ii) Serve as the forum in which each member of the Committee shall report on and explain ongoing or prospective telecommunications plans and programs developed or designed to achieve
