§ 51.907 Transition of price cap carrier access charges.

(a) Notwithstanding any other provision of the Commission’s rules, on December 29, 2011, a Price Cap Carrier shall cap the rates for all interstate and intrastate rate elements for services contained in the definitions of Interstate End Office Access Services, Tandem Switched Transport Access Services, and Dedicated Transport Access Services. In addition, a Price Cap Carrier shall also cap the rates for any interstate and intrastate rate elements in the traffic sensitive basket” and the “trunking basket” as described in 47 CFR 61.42(d)(2) and (3) to the extent that such rate elements are not contained in the definitions of Interstate End Office Access Services, Tandem Switched Transport Access Services, and Dedicated Transport Access Services. Carriers will remove these services from price cap regulation in their July 1, 2012 annual tariff filing.

(b) *Step 1.* Beginning July 1, 2012, notwithstanding any other provision of the Commission’s rules:

(1) Each Price Cap Carrier shall file tariffs, in accordance with § 51.905(b)(2), with the appropriate state regulatory authority, that set forth the rates applicable to Transitional Intrastate Access Service in each state in which it

provides Transitional Intrastate Access Service.

(2) Each Price Cap Carrier shall establish the rates for Transitional Intrastate Access Service using the following methodology:

(i) Calculate total revenue from Transitional Intrastate Access Service at the carrier’s interstate access rates in effect on December 29, 2011, using Fiscal Year 2011 intrastate switched access demand for each rate element.

(ii) Calculate total revenue from Transitional Intrastate Access Service at the carrier’s intrastate access rates in effect on December 29, 2011, using Fiscal Year 2011 intrastate switched access demand for each rate element.

(iii) Calculate the Step 1 Access Revenue Reduction. The Step 1 Access Revenue Reduction is equal to one-half of the difference between the amount calculated in paragraph (b)(2)(i) of this section and the amount calculated in paragraph (b)(2)(ii) of this section.

(iv) A Price Cap Carrier may elect to establish rates for Transitional Intrastate Access Service using its intrastate access rate structure. Carriers using this option shall establish rates for Transitional Intrastate Access Service such that Transitional Intrastate Access Service revenue at the proposed rates is no greater than Transitional Intrastate Access Service revenue at the intrastate rates in effect as of December 29, 2011 less the Step 1 Access Revenue Reduction, using Fiscal Year 2011 demand. Carriers electing to establish rates for Transitional Intrastate Access Service in this manner shall notify the appropriate state regulatory authority of their election in the filing required by § 51.907(b)(1).

(v) A Price Cap Carrier may elect to apply its interstate access rate structure and interstate rates to Transitional Intrastate Access Service. In addition to applicable interstate access rates, the carrier may, between July 1, 2012 and July 1, 2013, assess a transitional per-minute charge on Transitional Intrastate Access Service end office switching minutes (previously billed as intrastate access). The transitional per-minute charge shall be no greater than the Step 1 Access Revenue Reduction divided by Fiscal Year 2011 Transitional Intrastate Access Service
