

## Federal Communications Commission

## § 52.101

procedures that have the effect of delaying or denying porting of the NANP-based telephone number.

[73 FR 9481, Feb. 21, 2008, as amended at 73 FR 41294, July 18, 2008; 80 FR 66479, Oct. 29, 2015]

### § 52.35 Porting Intervals.

(a) All telecommunications carriers required by the Commission to port telephone numbers must complete a simple wireline-to-wireline or simple intermodal port request within one business day unless a longer period is requested by the new provider or by the customer. The traditional work week of Monday through Friday represents mandatory business days and 8 a.m. to 5 p.m. represents minimum business hours, excluding the current service provider's company-defined holidays. An accurate and complete Local Service Request (LSR) must be received by the current service provider between 8 a.m. and 1 p.m. local time for a simple port request to be eligible for activation at midnight on the same day. Any simple port LSRs received after this time will be considered received on the following business day at 8 a.m. local time.

(b) Small providers, as described in the *2009 LNP Porting Interval Order*, must comply with this section by February 2, 2011.

(c) Unless directed otherwise by the Commission, any telecommunications carrier granted a waiver by the Commission of the one-business day porting interval described in paragraph (a) must complete a simple wireline-to-wireline or simple intermodal port request within four business days unless a longer period is requested by the new provider or by the customer.

(d) All telecommunications carriers required by the Commission to port telephone numbers must complete a non-simple wireline-to-wireline or non-simple intermodal port request within four business days unless a longer period is requested by the new provider or by the customer.

(e) For purposes of this section:

(1) The term "local time" means the predominant time zone of the Number Portability Administration Center (NPAC) Region in which the telephone number is being ported; and

(2) The term "intermodal ports" includes

- (i) Wireline-to-wireless ports;
- (ii) Wireless-to-wireline ports; and
- (iii) Ports involving interconnected VoIP service.

[75 FR 35315, June 22, 2010, as amended at 80 FR 66480, Oct. 29, 2015]

### § 52.36 Standard data fields for simple port order processing.

(a) A telecommunications carrier may require only the data described in paragraphs (b) and (c) of this section to accomplish a simple port order request from an end user customer's new telecommunication's carrier.

(b) *Required standard data fields.*

- (1) Ported telephone number;
- (2) Account number;
- (3) Zip code;
- (4) Company code;
- (5) New network service provider;
- (6) Desired due date;
- (7) Purchase order number;
- (8) Version;
- (9) Number portability direction indicator;
- (10) Customer carrier name abbreviation;
- (11) Requisition type and status;
- (12) Activity;
- (13) Telephone number of initiator; and
- (14) Agency authority status.

(c) *Optional standard data field.* The Passcode field shall be optional unless the passcode has been requested and assigned by the end user.

[75 FR 35315, June 22, 2010, as amended at 80 FR 66480, Oct. 29, 2015]

### §§ 52.37–52.99 [Reserved]

## Subpart D—Toll Free Numbers

SOURCE: 62 FR 20127, Apr. 25, 1997, unless otherwise noted.

### § 52.101 General definitions.

As used in this part:

(a) *Toll Free Numbering Administrator (TFNA).* The entity appointed by the Commission under its authority pursuant to 47 U.S.C. 251(e)(1) that provides user support for the Service Management System database and administers the Service Management System database on a day-to-day basis.
