

§ 63.10 shall file tariffs pursuant to Section 203 of the Communications Act, 47 U.S.C. 203, and part 61 of this chapter. Except as specified in § 20.15(d) of this chapter with respect to commercial mobile radio service providers, carriers regulated as non-dominant, as defined in § 61.3 of this chapter, and providing detariffed international services pursuant to § 61.19 of this chapter must comply with all applicable public disclosure and maintenance of information requirements in §§ 42.10 and 42.11 of this chapter.

(d) [Reserved]

(e) Authorized carriers may not access or make use of specific U.S. customer proprietary network information that is derived from a foreign network unless the carrier obtains approval from that U.S. customer. In seeking to obtain approval, the carrier must notify the U.S. customer that the customer may require the carrier to disclose the information to unaffiliated third parties upon written request by the customer.

(f) Authorized carriers may not receive from a foreign carrier any proprietary or confidential information pertaining to a competing U.S. carrier, obtained by the foreign carrier in the course of its normal business dealings, unless the competing U.S. carrier provides its permission in writing.

(g) The Commission reserves the right to review a carrier's authorization, and, if warranted, impose additional requirements on U.S. international carriers in circumstances where it appears that harm to competition is occurring on one or more U.S. international routes.

(h) Subject to the requirement of § 63.10 that a carrier regulated as dominant along a route must provide service as an entity that is separate from its foreign carrier affiliate, and subject to any other structural-separation requirement in Commission regulations, an authorized carrier may provide service through any wholly owned direct or indirect subsidiaries. The carrier must, within thirty (30) days after the subsidiary begins providing service, file with the Commission a notification referencing the authorized carrier's name and the FCC file numbers under which the carrier's authorizations were

granted and identifying the subsidiary's name and place of legal organization. This provision shall not be construed to authorize the provision of service by any entity barred by statute or regulation from itself holding an authorization or providing service.

(i) An authorized carrier, or a subsidiary operating pursuant to paragraph (h) of this section, that changes its name (including the name under which it is doing business) must notify the Commission within thirty (30) days of the name change. Such notification shall reference the FCC file numbers under which the carrier's authorizations were granted.

(j) Subject to the availability of electronic forms, all notifications and other filings described in this section must be filed electronically through the International Bureau Filing System (IBFS). A list of forms that are available for electronic filing can be found on the IBFS homepage. For information on electronic filing requirements, see part 1, §§ 1.1000 through 1.10018 of this chapter and the IBFS homepage at <http://www.fcc.gov/ibfs>. See also §§ 63.20 and 63.53.

#### **§ 63.22 Facilities-based international common carriers.**

The following conditions apply to authorized facilities-based international carriers:

(a) A carrier authorized under § 63.18(e)(1) may provide international facilities-based services to international points for which it qualifies for non-dominant regulation as set forth in § 63.10, except in the following circumstance: If the carrier is, or is affiliated with, a foreign carrier in a destination market and the Commission has not determined that the foreign carrier lacks market power in the destination market (see § 63.10(a)), the carrier shall not provide service on that route unless it has received specific authority to do so under § 63.18(e)(3).

(b) The carrier may provide service using half-circuits on any U.S. common carrier and non-common carrier facilities that do not appear on an exclusion list published by the Commission. Carriers may also use any necessary non-U.S.-licensed facilities, including any submarine cable systems, that do not appear on the exclusion list. Carriers may not use U.S. earth stations to access non-U.S.-licensed satellite systems unless the Commission has specifically approved the use of those satellites and so indicates on the exclusion list. The exclusion list is available from the International Bureau's World Wide Web site at <http://www.fcc.gov/ib>.

(c) Specific authority under § 63.18(e)(3) is required for the carrier to provide service using any facilities listed on the exclusion list, to provide service between the United States and any country on the exclusion list, or to construct, acquire, or operate lines in any new major common carrier facility project.

(d) The carrier may provide international basic switched, private line, data, television and business services.

(e) The carrier shall file annual international circuit capacity reports as required by § 43.82 of this chapter.

(f) The terms and conditions of any operating or other agreement relating to the exchange of services, interchange or routing of traffic and matters concerning rates, accounting rates, division of tolls, the allocation of return traffic, or the basis of settlement of traffic balances, entered into by U.S. common carriers authorized pursuant to this part to provide facilities-based switched voice service on the U.S.-Cuba route in correspondence with a Cuban carrier that does not qualify for the presumption that it lacks market power in Cuba, shall be identical to the equivalent terms and conditions in the operating agreement of another carrier providing the same or similar service between the United States and Cuba. Carriers may seek waiver of this requirement. *See International Settlements Policy Reform, Report and Order, IB Docket Nos. 11–80, 05–254, 09–10, RM 11322, FCC 12–145 (rel. November 29, 2012).*

(g) A carrier or other party may request Commission intervention on any

U.S. international route for which competitive problems are alleged by filing with the International Bureau a petition, pursuant to this section, demonstrating anticompetitive behavior by foreign carriers that is harmful to U.S. customers. The Commission may also act on its own motion. Carriers and other parties filing complaints must support their petitions with evidence, including an affidavit and relevant commercial agreements. The International Bureau will review complaints on a case-by-case basis and take appropriate action on delegated authority pursuant to § 0.261 of this chapter. Interested parties will have 10 days from the date of issuance of a public notice of the petition to file comments or oppositions to such petitions and subsequently 7 days for replies. In the event significant, immediate harm to the public interest is likely to occur that cannot be addressed through *post facto* remedies, the International Bureau may impose temporary requirements on carriers authorized pursuant to § 63.18 of this chapter without prejudice to its findings on such petitions.

(h) A carrier shall file with the Commission a list of U.S.-international routes for which it has an arrangement with a foreign carrier for direct termination in the foreign destination. The carrier shall notify the Commission within 30 days after it adds a termination arrangement for a new foreign destination or discontinues arrangements with a previously listed destination. The list shall be filed electronically in accordance with instructions from the International Bureau.

(i) The authority granted under this part is subject to all Commission rules and regulations and any conditions or limitations stated in the Commission's public notice or order that serves as the carrier's Section 214 certificate. See §§ 63.12, 63.21 of this part.

NOTE 1 TO § 63.22: For purposes of this section, *foreign carrier* is defined in § 63.09 of this chapter.

NOTE 2 TO § 63.22: For purposes of this section, a *foreign carrier* shall be considered to possess market power if it appears on the Commission's list of foreign carriers that do not qualify for the presumption that they lack market power in particular foreign points. This list is available on the International Bureau's World Wide Web site at

<http://www.fcc.gov/ib>. The Commission will include on the list of foreign carriers that do not qualify for the presumption that they lack market power in particular foreign points any foreign carrier that has 50 percent or more market share in the international transport or local access markets of a foreign point. A party that seeks to remove such a carrier from the Commission's list bears the burden of submitting information to the Commission sufficient to demonstrate that the foreign carrier lacks 50 percent market share in the international transport and local access markets on the foreign end of the route or that it nevertheless lacks sufficient market power on the foreign end of the route to affect competition adversely in the U.S. market. A party that seeks to add a carrier to the Commission's list bears the burden of submitting information to the Commission sufficient to demonstrate that the foreign carrier has 50 percent or more market share in the international transport or local access markets on the foreign end of the route or that it nevertheless has sufficient market power to affect competition adversely in the U.S. market.

### § 63.23 Resale-based international common carriers.

The following conditions apply to carriers authorized to resell the international services of other authorized carriers:

(a) A carrier authorized under § 63.18(e)(2) may provide resold international services to international points for which the applicant qualifies for non-dominant regulation as set forth in § 63.10, except that the carrier may not provide either of the following services unless it has received specific authority to do so under § 63.18(e)(3):

(1) Resold switched services to a non-WTO Member country where the applicant is, or is affiliated with, a foreign carrier; and

(2) Switched or private line services over resold private lines to a destination market where the applicant is, or is affiliated with, a foreign carrier and the Commission has not determined that the foreign carrier lacks market power in the destination market (see § 63.10(a)).

(b) The carrier may not resell the international services of an affiliated

carrier regulated as dominant on the route to be served unless it has received specific authority to do so under § 63.18(e)(3).

(c) Subject to the limitations specified in paragraph (b) of this section and in § 63.17(b), the carrier may provide service by reselling the international services of any other authorized U.S. common carrier or foreign carrier, or by entering into a roaming or other arrangement with a foreign carrier, for the provision of international basic switched, private line, data, television and business services to all international points.

NOTE TO PARAGRAPH (c): For purposes of this paragraph, a roaming arrangement with a foreign carrier is defined as an arrangement under which the subscribers of a U.S. commercial mobile radio service provider use the facilities of a foreign carrier with which the subscriber has no direct pre-existing service or financial relationship to place a call from the foreign country to the United States.

(d) The carrier may provide switched basic services over its authorized resold private lines in either of the following two circumstances:

(1) The country at the foreign end of the private line appears on the Commission's list of international routes exempted from the international settlements policy set forth in § 64.1002 of this chapter; or

(2) The carrier is exchanging switched traffic with a foreign carrier that lacks market power in the country at the foreign end of the private line. A foreign carrier lacks market power for purposes of this section if it does not appear on the Commission's list of foreign carriers that do not qualify for the presumption that they lack market power in particular foreign points.

NOTE TO PARAGRAPH (d): The Commission's list of international routes exempted from the international settlements policy, and the Commission's list of foreign carriers that do not qualify for the presumption that they lack market power in particular foreign points are available on the International Bureau's World Wide Web site at <http://www.fcc.gov/ib>.

(e) The authority granted under this part is subject to all Commission rules and regulations and any conditions or
